1. Write the differences b/w nested classes and inner classes with min. 5 differences.

2. list the advantages of packages and

3. list any 10 interfaces or classes of java.io package.

_____

2. Advantages of packages:-

=> packages decreases development time

=> they reduces code size

=> packages increases reliability

=> these are consistent with the theme of reuse.

=> Same name of classes can be created in multiple packages.

=> Similar classes are grouped based on their concept.

=> Accessing of classes becomes easy by importing the complete package at a time.

3.

=> String

=> Thread

=> Runnable

=> Integer

=> Double

=> file

=> specializable.

Nested classes	Inner classes.
1. It is defined in another class type.	1. Defined in
